

Dear Sir / Madam,

Further to our recent communication, I am writing to inform you that the controlled blast scheduled at Croft Quarry for the week commencing 24th August, in order to demolish a disused structure, was postponed due to weather conditions. This will now take place on either Thursday or Friday of this week weather permitting.

Another blast originally scheduled for the week commencing 31st August is now scheduled to take place the following week (w/c 7th September) at a location lower down in the quarry.

Following the disturbance caused to some residents within the local area by a previous blast, we put in place a larger, more flexible time frame for these works to be undertaken when weather conditions were favourable. We always aim to be a conscientious neighbour, and we thank you for your understanding as to why the dates have changed.

If you have any questions, please do not hesitate to contact us on the telephone number below.

Yours faithfully,

A handwritten signature in black ink, appearing to read "A. Robinson".
